

DUTY DECK

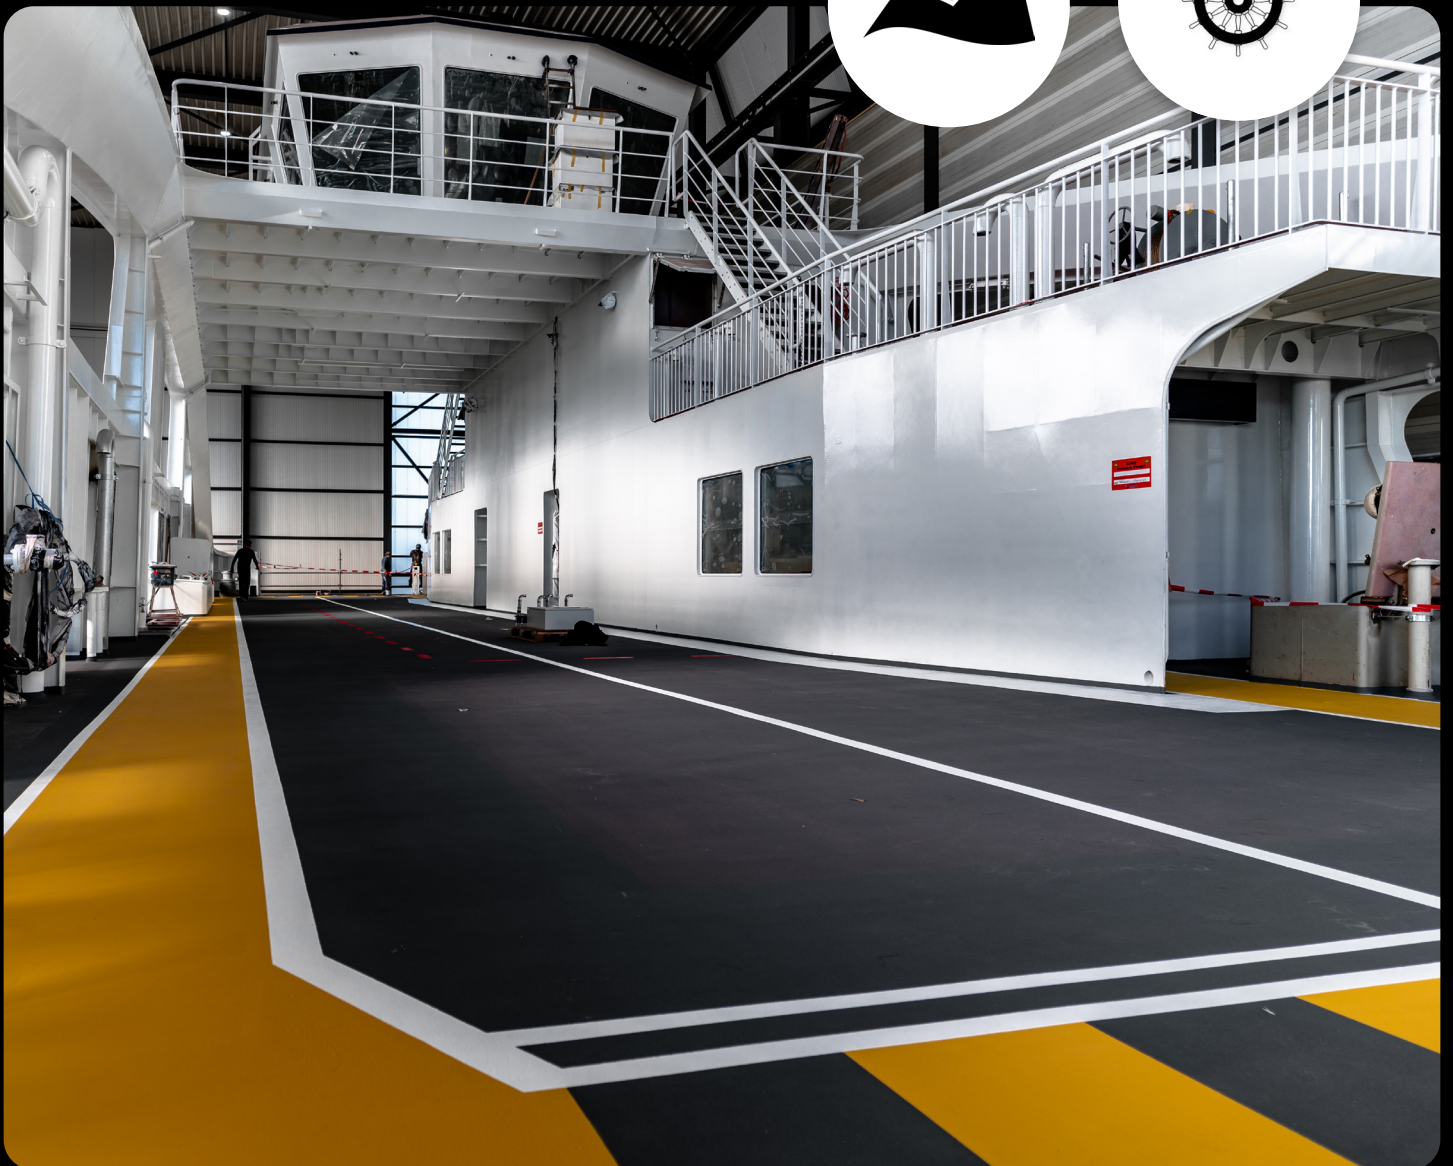

MARINE FLOORING

DURABLE AND WEAR-RESISTANT SELF-LEVELLING FLOOR

Where floor finishes are exposed to heavy loads and demanding conditions, the Herculan Marine Duty Deck is the ideal choice. Designed for extreme durability, this robust flooring system combines outstanding wear resistance with a highly non-skid surface, ensuring maximum safety and reliability in the toughest marine environments.

The Herculan Marine Duty Deck meets the strictest performance requirements and is specifically developed for areas subject to intensive use. Typical applications include Ro-Ro decks, loading ramps, exterior decks, ferries, and other high-traffic working areas.

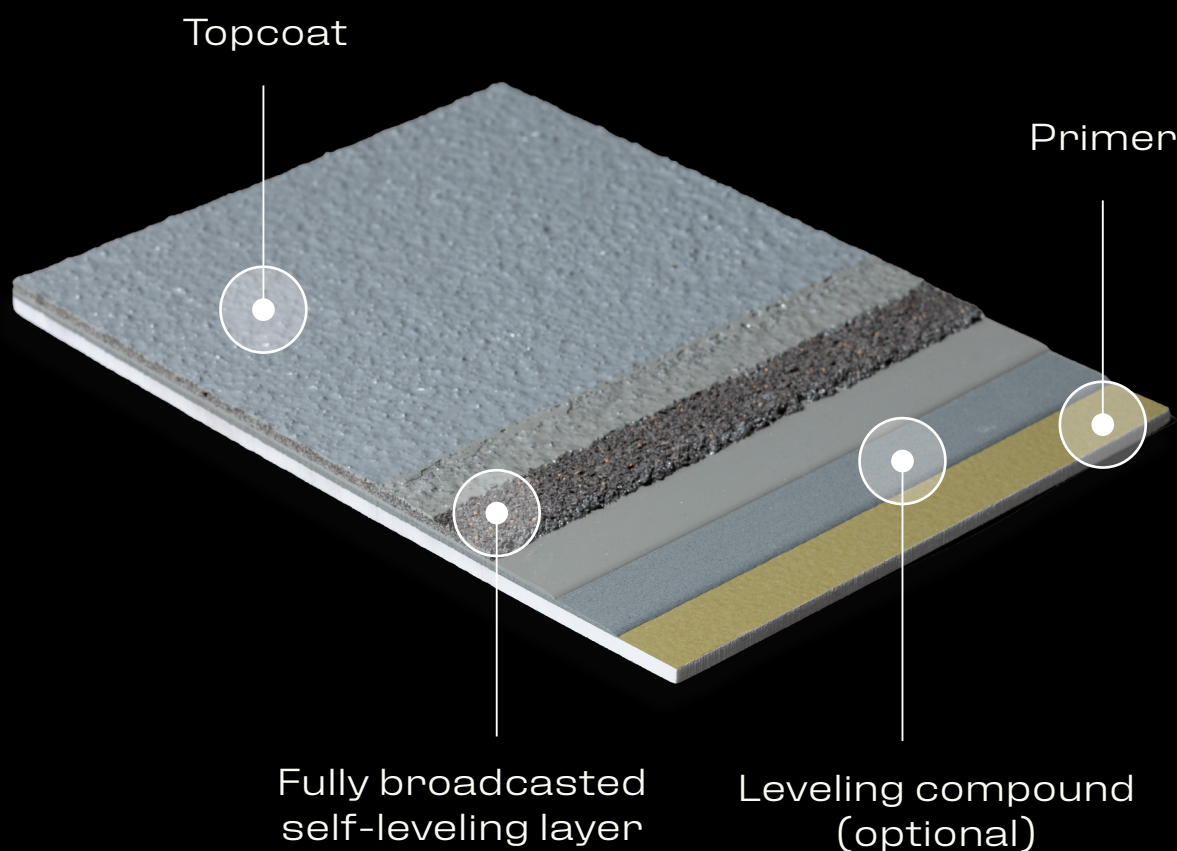

The result is a durable, safe, and dependable flooring solution that performs under the most challenging conditions.

System properties

HERCULAN DUTY DECK

THICKNESS	4-5 mm
DENSITY	1340 kg/m ³
SHORE HARDNESS	D 60
RELATIVE ELONGATION (EN 12230)	84 %
