

SEAMLESS FLOORS SL 300 SERIES

- SEAMLESS
- SOLVENT-FREE
- HIGHLY WEAR-RESISTANT & LOW-MAINTENANCE
- EASY TO CLEAN
- GOOD SCRATCH RESISTANCE
- FIRE CLASS BFL-S1
- ENVIRONMENTALLY FRIENDLY

The SL 300 series includes Herculán's polyurethane self-leveling floor systems, to which a colored PU topcoat is applied. Depending on the requirements and wishes, various types of polyurethane are possible. The systems provide a seamless, liquidproof floor finish.

Because of the various options, the areas of application are very extensive. Examples are schools, hotels, shops, houses, care homes, hospitals and libraries. Due to the use of a colored PU coating from the Herculán range, these systems are completely color-stable.
